

26th Wellington Masters Classic Cross Country Relay

Trentham Memorial Park, Upper Hutt, Sunday 8th May 2011

The ground was a little soggy underfoot in parts but overall the surface was pretty good for running/walking on. Early morning rain disappeared for the conditions to turn out sunny and warm though there was a gusty wind to contend with over parts of the course. Only 14 teams (seven running and seven walking) – one up on last year - took part. There were entries in all grades except the Masters Women's grade.

Fastest laps for the runners were Michael Wray (15:10) and Tineke Hooft (18:04). Fastest walkers were Peter Baillie (24:44) and Robyn McArthur (26:15).

Note:

When entries closed for the Relay there were 15 teams entered but on race day one team didn't show. This would have been two more teams than last year if all entered teams had made the start line.

One of the Walking teams disqualified itself after one of its members took a short cut after coming off the road and onto the track soon after the start. A protest was lodged by another team, but after discussion amongst the team members, the offending team took themselves out of consideration for any placing. The team hasn't been included in these results. This shows why it is important for team members to familiarise themselves with the course beforehand.
