

Wellington Masters 5km & 10km Road Run and Walk

Sunday 4th November 2018

We only managed to attract 19 competitors to this year's race, which is a concern. Perhaps we erred in moving from October to November, which we did to avoid both the long weekend and the races scheduled during the October period.

Those that did compete enjoyed a sunny Wellington day, albeit that the wind turned up for the second half and made the final 2.5km hard work. The low numbers meant the apricot balls and other goodies offered for morning tea went far, as well as raising the winning rate for spot prizes to over one in three.

For the merit prizes, Brian Hayes was fastest male runner and Marketa Langova the fastest female, with Christine Jones scoring the highest age grade. Geoff Iremonger was the fastest male walker, while Jacqueline Wilson was fastest female and fastest overall, as well as the best on age-grade.
